Chief's Statement

In 2022, the world emerged from the trials of the pandemic and began its return to normalcy. As we continue on this path, we have seen the return of in-person gatherings, training opportunities, and large-scale community events. This year's success of the annual Blossom Festival and parade, the Cañon City 150th Anniversary Jubilee, Whitewater Festival, and other events demonstrate the strength and resiliency of the City of Cañon City.

At the same time, we have seen ongoing turmoil in cities across the nation, with police departments struggling to maintain or re-establish strong community relationships. Gratefully, thanks in large part to the commitment to Service Excellence by the Cañon City Police Department staff, the City of Cañon City, and our citizens, we have been spared these tribulations.

21ST CENTURY POLICING PILLARS

1. *Trust and Transparency*
2. *Policy and Oversight*
3. *Technology and Social Media*
4. *Community Policing and Crime Reduction*
5. *Training and Education*
6. *Officer Safety and Wellness*

The Cañon City Police Department remains dedicated the Pillars of 21st Century Policing, and the spirit of Service Excellence. These principals represent the best practices in policing today. Our community can and should expect its police department to provide not only protection, but Service and Guardianship to every person. As you read through this report you will have an opportunity to witness what your police department has accomplished in 2022. These achievements are a direct result of the Police Department staff's hard work, dedication, and professionalism.

Our ability to interact positively and professionally with the public is essential to our commitment to Service Excellence. As a team we strive to maintain and improve our readiness and response posture through accountability standards and enhanced training. Additionally, we will continue to increase our community engagement footprint while demonstrating accountability, trust, and transparency.

I thank and commend this community for their support. And, I want to thank the men and women of the Canon City Police Department for their character and commitment to all of you. I look forward to the ongoing opportunity to demonstrate our pledge to Service Excellence and our exceptional home.

Thank you.

J.W. Schick Jr.
Chief of Police

***"Evil is powerless
if the good are
unafraid"***

***President Ronald
Reagan***

Vision Statement

We will be innovative leaders who are committed to our community and each other.

Mission Statement

The mission of the Cañon City Police Department is to, in partnership with our community, promote the quality of life by providing police services with integrity and a spirit of excellence, by preventing crime, solving crime, and protecting the rights of our citizens.

Values of the Department

- **Courage** – I will boldly face adversity and confront any who break the law despite personal danger or ridicule.
- **Professionalism** – I will learn, develop, and practice my expertise in all aspects of progressive policing methods.
- **Respect** – I will always show empathy and fairness toward those I serve, regardless of their differences or station in life.
- **Integrity** – My character in my professional and personal life will portray the highest sense of honesty and virtue in both my words and actions.
- **Diligence** – I will not idly fulfill my obligations but will fervently strive to complete my duties, investigate crime and enforce the law.
- **Excellence** – I will constantly improve my work and welcome constructive criticism.

Overview

The Canon City Police Department subscribes to the Six Pillars of 21st Century Policing identified in the Final Report of the President's Task Force on 21st Century Policing:

- Building Trust and Legitimacy.
- Policy and Oversight.
- Technology and Social Media.
- Community Policing and Crime Reduction.
- Training and Education.
- Officer Safety and Wellness.

The department is divided into three major divisions: Law Enforcement, Support Services, and Administrative Services Divisions.

While all each member of the department is tasked with promoting each of these pillars, specialization within the department means that the divisions within the department are more involved in some areas than others. For example, as a matter of principle, all personnel are responsible for maintaining Officer Safety and Wellness, however, Community Policing and Crime Reduction are the primary role of the Law Enforcement Division, Technology and Social Media falls under the Support Services Division, and Policy and Oversight is the primary role of the Administrative Services Division.

The Chief of Police exercises control and delegates responsibility through three Commanders, a Community Service Officer Supervisor, Records Manager and a variety of staff and line supervisors. The Chief of Police provides general supervision and leadership to the department through initiating department programs, conducting policy administration, responding to community safety concerns, budget management, providing public information about department matters, and strategic planning. The police department budget is the largest in the city and was budgeted for \$6.98 million in 2022, and has received close to \$1 million in state and federal grants over the past two years. The department forecasts its budgeting needs but is always looking for ways to cut costs and be fiscally responsible without comprising service. The department annually develops an annual strategic plan and develops a budget based on strategic priorities to address department and community concerns.

The Department recently implemented several technology projects to improve efficiency in operations and transparency to the community. Computers in patrol cars, body cameras, electronic traffic records, automated license plate readers, and field fingerprint readers

have all been implemented within the past several years. In 2022, the Department added automated traffic sign to provide data on traffic volume, speed, and other information to improve traffic enforcement targeting. New packset radios were purchased with COVID-19 relief funds to replace current radios which are beyond their useful service life. The Department received a donation of a small quadrotor drone to provide real-time aerial photos and video. Reduced restrictions on in-person gatherings have allowed the Department to host a variety of meetings and training sessions for on a regular basis both internally and in cooperation with regional agencies.

The Department also joined the ABLE project. The ABLE project is a program hosted by the Georgetown School of Law, and provides training and resources to teach law enforcement how to intervene in use of force, mental health issues, and other forms of misconduct before they reach a level where they cause harm. The Cañon City Police Department is one of the few departments in the state currently certified by the ABLE project, and the only one in the Fremont County Region. This program is going statewide in 2023, and the Department is positioned to be a leader in assisting other agencies to bring the ABLE project home.

Beyond the ABLE project, the Department joined Project Lifesaver in 2022. Project Lifesaver provides individuals with medical conditions, such as dementia and autism, which tend to cause them to wander away from a safe environment, with a wristband. The wristband transmits a radio signal which allows law enforcement to quickly locate and assist these individuals when they are lost and in need of aid.

The Department participated in a national program to donate expired bullet resistant armor to military forces fighting in Ukraine. This program benefited the Department by reducing costs for disposal of these sensitive items, and at the same time furthers the cause of freedom in the world.

In addition to regular patrol duties, municipal code enforcement, animal control, evidence management, and record-keeping, the Department again significantly increased its Community Engagement activities throughout the year. Officers staffed a regular series of annual events such as the Blossom and Whitewater festivals, the Cañon City Jubilee and other 150th anniversary-related events, and provided community presence at major holidays and smaller community festivities, totaling over twenty separate events throughout the year staffed with officers assigned to meet with community members and stakeholders. Additionally, officers participated in the National Night Out program, and organized a record-breaking Shop with a Cop event where over 120 underprivileged children received Christmas gifts for their families. This was the second year in a row where the department has raised record-setting amounts and served record-setting numbers of children at this event. Further, the Department provided over \$30,000 in overtime hours supporting city businesses, non-profit organizations, and community groups.

In Memoriam

While the Department celebrates these events and accomplishments, we must also note the passing of retired Support Services Commander Steve Huskey. Commander Huskey passed away in May, 2022, after a long and difficult battle with cancer. In spite of his trials, Commander Huskey exhibited the highest imaginable commitment to this community and the people of the State of Colorado as long as he was able. We honor Commander Huskey's service to our community, and our thoughts and prayers are with him and his family.

Law Enforcement Division

- Pillar 1 – Trust and Transparency
- Pillar 2 – Policy and Oversight
- Pillar 3 – Technology and Social Media
- Pillar 4 – Community Policing and Crime Reduction
- Pillar 5 – Training and Education
- Pillar 6 – Officer Safety and Wellness

The Law Enforcement Division is the backbone of the Canon City Police Department, and handles calls for service ranging from traffic complaints and neighborhood disputes to sexual assaults and homicides. As the most visible division in the department, the Law Enforcement Division supports Trust and Transparency by directly engaging the community to address concerns. This Division supports Policy and Oversight through direct supervision of officers and their interactions. The Division supports Community Policing and Crime Reduction with proactive patrol and criminal investigations. Finally, the Law Enforcement Division supports Officer Safety and Wellness through an established peer support program, regular shift training on safe officer tactics, and a culture of officers looking out for one another.

In December, 2022, Law Enforcement Division Commander Tim Bell successfully graduated from the Federal Bureau of Investigations National Academy in Quantico, Virginia. This is a rigorous ten-week program of instruction, including topics such as leadership, media relations, personnel management, and constitutes one of the most respected law enforcement training programs in the world.

In 2022, the Department responded to a total of 28,114 calls for service, resulting in 4,086 police reports. In 2021, the Department responded to 26,369 call for service. This difference of 1,745 calls represents a 6.62% increase in call volume. Approximately ninety-five percent of these calls were handled by officers in the Law Enforcement Division. The average response time for all calls was eight minutes and ten second. Last year's average response time was six minutes and eighteen seconds. The average response time for a physical disturbance was five minutes and fourteen seconds. The average response time for a physical disturbance call was three minutes and thirty-two seconds. By comparison, the average response time for the highest priority calls for the Colorado Springs Police Department at the end of 2021 was eleven minutes and fifty-one seconds, with low priority calls taking considerably longer. Further, the overall case clearance rate in Canon City in 2022 was 41.31 percent. The national average case clearance rate for 2021, the last year statistics are currently available was only 32.21 percent.

Significant Accomplishments

The Law Enforcement Division responded to a number of significant incidents in 2023. Of particular note:

On January 22, 2022 members of the Canon City Police Department responded to a report of a first degree assault where the reported suspect, Isaac Montoya, had stabbed his brother multiple times. Isaac was arrested on scene while his brother was transported to the hospital and later transported to Colorado Springs for additional medical services. Isaac was charged with First Degree Assault (CRS 18-3-202(a)(b)(c) (Felony 3).

On February 7, 2022 members of the Canon City Police Department received information regarding a threat of an impending school shooting. An arrest warrant was issued for the suspected party, who was later arrested. A full investigation was launched into the matter, to include threat matrices, operational plans and the execution of multiple search warrants, resulting in the charging of Lawrence Despain for Interference with Staff, Faculty or Students-Credible Threat (CRS 18-9-109(6)(a)), Introduction of Contraband in the First Degree (CRS 18-8-203(1)(a)) (Felony 4) and Introducing Contraband in the Second Degree (CRS 18-8-204(1)(a)) (Felony 6).

Additional significant accomplishments included:

- Coordinated a homeless camp clean up directive with the city. Officer Wade was the driving force behind this.
- Conducted an active shooter functional exercise with the school district.
- Creation of a SWAT team.
- Assigned Officers Jorden St. Louis and Taryn Leonard to SRO which is an added position with the school district to bring our number of school resource officers to 3.
- Ofc. Gary logged an impressive 4,447 minutes of enforcement on the traffic log. No one else has even come close to that amount.
- Bike patrol established.
- Conducted 10 Active Threat trainings for area businesses.
- Increased inter-agency narcotics investigations.
- Increasing readiness posture related to active violence with training and equipment.
- Approximately 20 separate community engagement events worked by officers.
- Established a bike patrol schedule and protocol for patrols on the Riverwalk trail system, which included an auto-aid agreement with Fremont County to address quality of life issues in that area.

Goals for 2023

- Obtain full staffing and maintain staffing levels, thus reducing the amount of stress to current officers who are unable to take time off. – Pillar 6, ***Officer Safety and Wellness***
- Establish a Crisis Negotiations unit to support the tactical team. – Pillar 4, ***Community Policing and Crime Reduction***
- Continue to build upon service excellence through proper case management and provide citizens with outstanding police service with timely and diligent follow-up efforts to solve crime and address concerns. – Pillar 4, ***Community Policing and Crime Reduction***
- Establish customer service surveys to ensure and improve Service Excellence through implementation of Power Engage system – Pillar 2, ***Policy and Oversight***; Pillar 3, ***Technology and Social Media***; Pillar 4, ***Community Policing and Crime Reduction***
- Identify trends in crime problems and meet with community partners and use internal resource management to come up with problem solving strategies to combat crime trends. – Pillar 4, ***Community Policing and Crime Reduction***
- Increase DUI and traffic enforcement – Pillar 4, ***Community Policing and Crime Reduction***
- Establish a narcotics enforcement strategy to incorporate a more holistic approach, involving partnerships with local partners to streamline treatment options for those suffering with addiction. – Pillar 4, ***Community Policing and Crime Reduction***
- In concert with local partners, establish a universal protocol for response to child abuse, sexual assault and death investigations. – Pillar 4, ***Community Policing and Crime Reduction***
- Continue Zone Assignments to identify problem areas and use 21st Century policing practices and strategies to build trust and transparency and address concerns among citizens. – Pillar 4, ***Community Policing and Crime Reduction***
- Begin planning for a full-scale active shooter exercise involving all regional partners. – Pillar 4, ***Community Policing and Crime Reduction***
- Identify and train new bike patrol officers to support current staffing and to fulfill bike patrol schedules. – Pillar 4, ***Community Policing and Crime Reduction***
- Establish a possible foot-patrol protocol. – Pillar 4, ***Community Policing and Crime Reduction***
- Reduce property crimes through successful resolution of cases and prosecution of offenders. – Pillar 4, ***Community Policing and Crime Reduction***
- Expand crime analytics and intelligence functions to better deploy resources and solve crime. – Pillar 3, ***Technology and Social Media***
- Increase communication and case management practices between investigations and patrol units to improve case resolutions. – Pillar 2, ***Policy and Oversight***

- Continued focus on enhancing the culture and climate of the department. – Pillar 1, *Trust and Transparency*

Support Services Division

- Pillar 1 – Trust and Transparency
- Pillar 2 – Policy and Oversight
- Pillar 3 – Technology and Social Media
- Pillar 4 – Community Policing and Crime Reduction
- Pillar 5 – Training and Education
- Pillar 6 – Officer Safety and Wellness

The Support Services Division assists and supports the daily operations of the police department. This Division supports Trust and Transparency by maintaining all department records and responding to public records and news media requests for information. The Division supports Technology and Social Media by working with the city's Information Technology department to ensure up to date technology equipment is available to members and by maintaining Department social media accounts. A full-time crime prevention technician housed in the Division provides neighborhood watch coordination and organizes regular community events in support of Community Policing and Crime Prevention. This Division also oversees the Mental Health Co-Responder Unit, which is responsible for providing mental health training to officers and assisting with a peer support program to enhance Officer Safety and Wellness. The Support Services Division includes the Records Unit, the Community Service Officer Unit, the Physical and Digital Evidence Units, the Co-Responder Unit, Fleet Services, and Crime Prevention. Among other responsibilities, this Division also manages police records and reporting to the National Incident Based Reporting System (NIBRS).

Significant Accomplishments

In 2022, the Community Service Officer Unit saw a significant increase in the number of calls for service related to dogs running at large. In spite of this, the Unit successfully reunited over ninety percent of impounded dogs with their owners. Additionally, the Unit took custody of five dogs after owners were hospitalized for medical issues, and successfully reunited each one with the owner or a family member. The unit responded to a total of 1,356 calls for service, ranging from stray dogs to mobile home inspections and other code enforcement questions and problems. The Code Enforcement Unit completed inspection in seventeen mobile home parks, totaling 519 mobile home units, to ensure compliance with associated ordinances. This resulted in 276 violations noted, but owners had

rectified 200 of these upon reinspection. These numbers also represent a 49% decrease in violations from 2021. The Unit also responded to 892 cases involving municipal code violations, and completed three property abatements. Not all code violations issues result in citations or abatement – in fact, eighty-five percent of violations are resolved through voluntary compliance and the use of courtesy warnings and follow-up visits by officers.

The Evidence Unit took in and processed 1547 new pieces of physical evidence, and disposed of 742 items. Digital evidence processed 4991 cases with associated digital evidence. This number actually exceeds the number of reports taken during the year, as many cases have additional digital evidence added long after the report is originally filed as officers locate additional evidence, requiring the case to be processed more than once. Digital evidence is also responsible for redacting body worn camera video prior to release, requiring over fifty hours of time to complete redactions on just over twenty hours of video.

The Records Unit is responsible for handling all documents and document requests in the department, along with sex offender registrations, animal licenses, VIN verifications, UTV permits and additional duties. Records staff purged over fifty boxes of old and unneeded documents as part of an ongoing project to reduce outdated files. Combined, the members of the unit responded to over 3200 phone calls, 800 public assists in the department lobby, processed over 800 records requests, and spent over 400 hours processing records requests.

The Crime Prevention Unit hosted numerous community engagement events, and raised significant funds to support events such as Shop with a Cop, including:

- Tee it Up For The Blue Golf Tournament raised \$13,000
- National Night out
- Starpoint basketball game
- 4 Coffee with a Cop events
- Boo at the Bridge
- Trunk or Treat
- Retiree Luncheon
- Rolled out agency baseball cards
- Raised \$30,000 for Shop with a Cop

Goals for 2023

- Improve program wrap-around services and marketing for the Mental Health Co-Responder program to increase services to the public. – Pillar 4, ***Community Policing and Crime Reduction***
- Increase collaborative efforts with peer and resource agencies. – Pillar 4, ***Community Policing and Crime Reduction***

- Re-establish the annual citizens' academy community outreach program. – Pillar 4, ***Community Policing and Crime Reduction***
- Continue to expand community charitable events. – Pillar 4, ***Community Policing and Crime Reduction***
- Improve Department transparency and increase social media presence by leveraging multiple platforms such as Crimewatch software platform. – Pillar 3, ***Technology and Social Media***
- Increase training and professional development opportunities within the Community Service Officer Unit. – Pillar 5, ***Training and Education***
- Continue progress with evidence dispositions and purge unneeded property by returning to rightful owners or destruction as appropriate. – Pillar 1, ***Trust and Transparency***
- Conduct periodic patrol training on records management and physical and digital evidence processing. – Pillar 5, ***Training and Education***
- Implement new records management software to streamline records request processing. – Pillar 3, ***Technology and Social Media; Pillar 1, Trust and Transparency***
- Streamline current processes to eliminate repetitive tasks and improve productivity. – Pillar 1, ***Trust and Transparency***

Administrative Services Division

- Pillar 1 – Trust and Transparency
- Pillar 2 – Policy and Oversight
- Pillar 3 – Technology and Social Media
- Pillar 4 – Community Policing and Crime Reduction
- Pillar 5 – Training and Education
- Pillar 6 – Officer Safety and Wellness

The Administrative Services Division supports the Chief of Police, Law Enforcement Division, and Support Services Division of department by performing the administrative functions necessary to maintain operational effectiveness and Service Excellence. These functions include policy review and updates, coordinating training, recruitment and hiring, and discipline and internal affairs. The Division supports Trust and Transparency by investigating complaints and major incidents to ensure compliance with relevant law and policy. This Division supports Policy and Oversight by conducting regular policy reviews and overseeing all disciplinary issues. The Division supports

Training and Education by coordinating all officer training, and promotes Officer Safety and Wellness by focusing training on officer and public safety concerns.

Significant Accomplishments

A well-trained officer corps is essential to any police department. Police officers in Canon City completed over 2600 hours of training in 2022. Topics covered included mandatory training for all officers in Active Bystandership for Law Enforcement, de-escalation techniques and the “What’s Important Now?” philosophy, arrest control, firearms, and emergency vehicle operations, along with elective training in a wide range of areas such as community policing, drug crime investigations, internal affairs, leadership, and mental health crisis intervention. Officers new to the department completed department “mini-academy” training beyond the in-service requirements for existing officers to ensure familiarity with police, law, and procedure specific to Canon City. All officers exceeded mandatory minimum training requirements. All supervisors participated in the Department’s first annual Leadership Development Retreat, covering topics from employee evaluation and mentoring to Extreme Ownership concepts of personal responsibility. Renewed emphasis was placed on providing ongoing leadership and job-related training for professional staff, including reporting, evidence handling, code enforcement, and supervision and leadership.

In 2022, the Department initiated one internal affairs investigation. This number very low compared to average numbers for the last five years, where such investigations ranged from a low of three to a high of thirteen. This single investigation resulted in no sustained violations of law or policy. In large part, the reduction in internal affairs investigations is attributed to the 2021 implementation of a new discipline policy, which allowed minor incidents which may previously have resulted in an internal affairs investigation being handled directly by an employee’s supervisor rather than a referral to internal affairs. Additional emphasis has been placed on de-escalation techniques and incremental accountability initiatives.

The Department initiated fifteen disciplinary actions for incidents that did not arise to the level of an internal affairs investigation. These actions resulted in a total of nine Notices to Correct (considered a written counseling statement rather than a disciplinary action), eight written reprimands, and two suspensions over the course of the year. No employees were terminated for disciplinary issues. One officer, who was hired on a provisional Colorado POST

certificate based on his out-of-state experience, resigned after failing to pass the Colorado POST exam.

Officers were involved in forty-nine incidents where some level of force was used against a suspect. Reportable levels of force applied ranged from mere officer presence, to display of a Taser or other intermediate weapon, to the strikes and takedowns. No officers or suspects received injuries requiring hospitalization as a result of any application of force. In addition to reportable use of force incidents, officers were involved in five vehicle pursuits. In all but one pursuit, officers terminated the pursuit in accordance with policy out of concern for the safety of the community. In one pursuit involving a violent suspect, officers successfully apprehended the suspect with no injuries or property damage. These numbers of incidents are consistent with averages over recent years. Supervisors and command staff reviewed all use of force incidents, and found no violations of law or policy with respect to such use of force.

Eighteen directives were issued and later adopted into policy modifying policy or procedure in order to maintain industry best practices or due to changes in statute. These directives addressed a wide range of policy changes, including radio procedures, reporting procedures, and use of force procedures.

A newly created Training Sergeant position was housed in the Administrative Services Division in 2022. The new position, held by Sergeant John Sabatino, oversees and coordinates all training in the department, and supervises the K-9 unit. Passage of Proposition 122 in November, 2022, which went into effect in December, 2022, will have significant negative effects on the K-9 program in its current form. The new law legalizes “natural medicine” such as psilocybin mushrooms in Colorado. As a result, the Department’s K-9s, which are trained to detect psilocybin, may no longer be used in their drug detection capacities except under highly limited circumstances.

Goals for 2023

- Begin accreditation process with the Colorado Association of Chiefs of Police. – Pillar 1, ***Trust and Transparency; Pillar 2, Policy and Oversight***
- Bring the department to full staffing. – Pillar 6, ***Officer Safety and Wellness***
- Analyze national trends in use of force and 2022 incidents of force in Canon City to develop training for 2023. – Pillar 1, ***Trust and Transparency; Pillar 2, Policy and Oversight; Pillar 5, Training and Education; Pillar 6, Officer Safety and Wellness***
- Expand the supervisor-training program that uses modern leadership principles and performance metrics to evaluate and prepare newly promoted first line supervisors. –

Pillar 5, ***Training and Education***

- Maintain ABLE Certification in Active Bystandership for Law Enforcement for all officers in the Department. – Pillar 1, ***Trust and Transparency***
- Establish employee recommendation forums with the Chief and grievance and recommendation committee. – Pillar 1, ***Trust and Transparency***
- Establish a Therapy K-9 program for the department. – Pillar 6, ***Officer Safety and Wellness***
- Reset the K-9 program to comply with the requirements imposed by the legalization of psilocybin. – Pillar 4, ***Community Policing and Crime Reduction***
- Reconvene the Recognition and Awards Committee to provide greater recognition of employee accomplishments. – Pillar 6, ***Officer Safety and Wellness***

National Incident Based Reporting System Crime Statistics

Property Crimes 2022

Canon City Police Department

Crimes Against Property

The offender’s intent is to obtain money, property, or some other benefit, e.g. robbery, bribery, burglary. One offense is counted for each distinct OPERATION (each incident/case) except motor vehicle theft, where one offense is counted for each vehicle stolen.

ROBBERY

The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody, or care of another person by force or threat of force or violence and/or putting the victim in fear or immediate harm. Please note, Robbery is the only property offense that allows victim injury data to be entered into COIBRS.

Violent Crime 2022

Canon City Police Department

Violent Crime consists of murder, non-consensual sex offenses and aggravated assault. Victims are always individuals. One offense is counted for each victim.

Data is current through the last full month, plus a 30-day data-entry lag. For example, April data is available beginning June 1. For this reason, the current year may not contain a full 12 months of data, and the counts should not be compared to previous years.
