Letter from Ira Lucas to Sarah Sherburne

Says that the hospital is being shut down and of a trip he took to Richmond visiting the rebel capital and Libby prison

Cav. Corps Hospital  
City Point Va May 7th 1865

Dear Friend Sarah

This is probably the last letter that I shall write you from Cav Corps. Hospital as all those who needed further medical treatment were sent to Gen. Hospital yesterday and we are to turn in all hospital stuff too morrow.

We will probably go to Washington soon and we hope soon to be at home.

May 4th I went to Richmond by way of Petersfurd [sp Petersburg?]. I saw the rebel Capital and went into the

Sennet chamber and sat in the chare of the traitors president this I did not considder very honorable. I saw Jeff. Davis' mansion and picked a flower and a leaf from one of the trees in the yard which I intend to keep as a memento of the pleasant places in which treason flourised and decayed and died.

I saw Libby prisson that wretched den in which so many patriots have sickened and died I saw the hole that Capt Strait and his noble fellows dug to escape from that awful denn.

I procured a few mementos from the prison. The main St of the city is in ruins and it looks desolate indeed. Washingtons statue yet remains in the state house and also one on his horse in the yard.

no more at present.
