

US 50 CORRIDOR PLAN IMPLEMENTATION TIMELINE

Cañon City US 50 Access Control Plan

Corridor Plan	Access Control Plan	Devolution	Design	ROW Acquisition	Construction
<ul style="list-style-type: none">Corridor planning process began in August 2014Multiple stakeholder meetings were held with property owners, business owners, and the Chamber of Commerce2 public meetings open to entire community were held in 2014Corridor Plan was adopted by City Council in August 2015	<ul style="list-style-type: none">In order for Cañon City to implement Corridor Plan, CDOT requires an Access Control PlanFocus is on access only. Does not consider detailed design, right-of-way, or construction issuesResults in an intergovernmental agreement between Cañon City and CDOTImplementation occurs with property redevelopment or with Corridor Plan	<ul style="list-style-type: none">Legal process that transfers authority of the frontage road from CDOT to Cañon CityFremont Drive right-of-way vacated by CDOTRequires close coordination and negotiation between Cañon City and CDOT	<ul style="list-style-type: none">Designed in a way that allows for construction in phases as funding becomes availableSpecifics, including drainage, roadway design, utilities, right-of-way, truck and emergency vehicle accommodations, will be addressed in this stepWill include public outreach and stakeholder coordination	<ul style="list-style-type: none">As determined in the design step, right-of-way acquisitions and property easements will be negotiated with affected property owners	<ul style="list-style-type: none">All previous steps must be complete before construction can beginCorridor is likely to be constructed in phases as funding becomes availableWill include public outreach and stakeholder coordination

Each step in the implementation process is an individual entity.

There is no obligation to move on after a step is completed.

However, in order to move on, all previous steps must be completed.

No funding for steps after the Access Control Plan has currently been identified.
